

A little about LASHNOIR

LASHNOIR Lash Artistes are among the most experienced in New Zealand. LASHNOIR lash extensions are expertly applied, one single lash at a time and tailored specifically to suit each client's lifestyle 'needs and desires'. An in depth consultation at the first appointment ensures a perfect end result, and the client leaves the salon looking and feeling great.

Each lash is chosen according to the client's desired look, as well as durability and comfort. LASHNOIR extensions are applied gently and carefully using a specially formulated lash adhesive. The extensions are seamless and natural looking. Lash damage is often the main concern when LASH extensions are talked about, our technical expertise and wealth of experience ensure this is no longer a concern.

At LASHNOIR we are continually sourcing the best products available from around the world, as well as continuously updating our skills to ensure we remain the best in our field. Our success is measured by our clients' success. We see our brand through our customers' eyes and actively seek feedback on client satisfaction to ensure we constantly exceed expectation.

Options are endless with LASHNOIR Couture Extensions; we carry one of the largest ranges of lashes available in New Zealand. Sizes range from 7mm - 15mm length, 0.10, 0.15, 0.20, 0.25 thickness and 4 degrees of curl from natural to glam.

At the time of consultation your stylist will recommend what treatment best suits your lifestyle and desired look. Dependant on your treatment you may be required to follow aftercare instructions and/or return for maintenance within the following 4 weeks. This ensures optimum longevity; good condition of natural eyelashes and consistency in the way your extensions look.
